

Environmental & Sustainability Policy

Making the **right choice** for the environment.

Diagenix Corporation recognizes that businesses can have a negative impact on the environment. We are committed to finding ways in which we can reduce the impact of our work both in the office and when work takes us away from the office.

We are fortunate in our line of work that we aren't required to purchase great quantities of materials and that we don't produce much waste.

It is our policy to:

- Comply with all relevant environmental legislation, regulations and requirements.
- Recycle all waste material possible.
- Reduce the amount of waste material produced.
- Avoid the use of paper wherever possible. For example, sending quote documents as PDF files.
- Avoid the use of postal services, saving on transportation and on paper (envelopes). For example, emailing invoices and statements of account.
- Recycle equipment that is no longer of use to the company. For example, we give away items such as computers and printers that we no longer use via local recycling companies.
- Aim to reduce our gas heating usage and have installed programmable thermostats.
- Keep energy usage low. For example, making use of low energy light bulbs throughout and using schedules to ensure computers are shut down after work.
- Reuse waste paper (from the printer) where possible, making use of the blank side for notes etc.
- Always to make use of recycling schemes by the printer manufacturers (to recycle toner cartridges and drums).
- Purchase products made with recycled paper. For example, laser paper, toilet paper.
- Purchase products with a lower environmental impact. For example, Ecover washing up liquid and hand soap.
- Avoid unnecessary travel by making use of instant messaging, video and audio conferencing, telephone and email.
- Work towards the conservation of energy, water and resources in all our operations.
- Strive to better understand both the direct and indirect impact that our practices may have on the environment.
- Promote environmental awareness throughout all operations of the company.
- We aim to regularly review our Environmental Policy and seek to reduce our impact each and every year.

About Diagenix Corporation

Diagenix is an innovative voice application company with over 20 years of industry expertise and knowledge in providing packaged and custom voice applications, servers, tools, and hosted outsourcing services that enable companies of all sizes to quickly and efficiently provide anytime, anywhere, access to information and transactions over the telephone.
